

C Program to pass structure variable to act as function argument.

Algorithm:

int main()

Step 1: start

Step 2: struct student s1

Step 3: Read s1, name, s1 age

Step 4: Display(s1)

Step 5: return 0

Step 6: stop.

void display (struct students)

Step 1: start

Step 2: print s name, s age

Step 3: stop.

Flowchart:

int main()
